- J. 1 Pair of Shoes
- K. 1 Accessory
- L. 1 Bottle
- M. 1 Doll
- N. 1 Mannequin

CONTENTS

Illustrations are for reference only. Styles may vary from actual contents.

QUICK START

Before beginning, cover the play area to prevent possible damage. Remove and discard the doll cutout and the content inside the dome.

Open the dome by sliding the heart on each side to the left towards the unlocked position. Slide one heart at a time before opening. Remove the holder from the bottom half of the dome. Then, place on a flat surface and pour in glitter or fuzz.

■ = Locked Position
■ = Unlocked Position

Insert the doll into the holder. Remove the cap on the glue container and dip an applicator into the glue. While holding the holder, apply glue to areas of the doll you want to decorate.

CREATE UNIQUE DESIGNS WITH THE APPLICATOR

TIP: Place a face mask on the doll to avoid getting glue on the face.

NOTE: Use the teal glue to apply the glitter and the pink glue when applying fuzz.

Spin the dome back and forth to scatter the glitter or fuzz until the doll is thoroughly coated. Then, unlock the dome and carefully remove the doll. Avoid touching the areas with fresh glitter and fuzz.

Replace the holder, making sure to insert the tabs into the notches on the bottom half of the dome. Then, replace the top half of the dome and lock by sliding the hearts towards the locked position.

Place the dome on the playset by inserting the tabs into the openings on the playset.

TIP: Doll should be in an upright position.

Holder can be inserted at different angles for better glitter or fuzz coverage.

Spin the dome back and forth to scatter the glitter or fuzz until the doll is thoroughly coated. Then, unlock the dome and carefully remove the doll. Avoid touching the areas with fresh glitter and fuzz.

Place the shoes on the doll and insert the toe area into the playset. Allow it to dry for two hours, or until it is tacky to the touch. Then, brush off excess glitter or fuzz with the bristle brush. If using a face mask, remove it in this step.

TIP: After it has dried, touch up areas by applying more glue and glitter or fuzz.

Hang the outfit on the hangers on the holder. Then, place the accessories on the mannequin and insert into the holder.

Add more glitter or fuzz to the dome if necessary. If switching from glitter to fuzz (or vice versa), remove the glitter from the dome to avoid mixing glitter and fuzz. Then, repeat steps 2 to 6.

NOTE: - Use the thin brush (left) applicator for small details.
- Use the round tip (right) applicator for small surfaces.

Allow the outfit to dry on the hangers. Place the mannequin with shoes in the footrest and wait two hours. Once it is tacky, carefully dress your doll.

Pour unused glitter or fuzz from the dome into the containers. Avoid mixing the glitter and fuzz when replacing.

TIP: Use the bristle brush to gather any remaining glitter or fuzz from the dome.

FLUSHING AGAIN AND AGAIN: Insert contents in a container with warm water (not included) and with your fingers, rub off the glitter and fuzz. Dry thoroughly before applying the glue.

PLAYSET — EXCLUSIVE DOLL

DISPLAY DOLL!
Add fuzz and glitter to multiple dolls or pets (not included) and display around the playset.

IMPORTANT INFORMATION

- An adult must be present and supervise when children are playing around water.
- Keep glue, glitter, and fuzz away from eyes, nose and mouth. Do not inhale or ingest. Glue, glitter and fuzz. If contents get in the eyes, flush thoroughly with water.
- Wash off glitter and fuzz on doll with warm water (98°F/37°C). Gather the glitter and fuzz and dispose in a trash receptacle. Do not dispose in the drain.
- If glitter or fuzz come off while displaying or styling, add glue and reapply glitter or fuzz.
- Glue, glitter, fuzz and face masks may not be removed from all surfaces.
- Peel off the backing on the face mask and place the mask on the doll's face. Face mask can be applied up to five times. Always remove after playing and do not leave on the doll for a long period of time.
- If you run out of the included items, use your own washable glue, glitter and flocking.
- Drying time may vary in different environments. Glue and glitter should be completely dry before playing.
- Only certain LOL Surprise™ pets (not included) will fit in the holder.
- For best results, fill the bottle and feed the doll two times.
- Do not feed the doll extremely hot water.
- DO NOT feed doll water that has been mixed with glitter or fuzz. Only fill the included bottle with clean water.
- Do not place the doll in extremely hot water (over 100°F/40°C).
- Do not store the doll or playset in direct sunlight for extended periods of time.
- Squeeze out all water from the bottle and the doll after each use.
- Thoroughly clean the doll on a dry towel in a well-ventilated area after use and before storing.
- Air dry the doll and contents. Do not place in the dryer or subject to excessive heat.
- Tightly replace the cap on the glue container after each use to prevent drying out.
- If glue gets on the playset, dome or other unwanted areas, rinse with water and dry thoroughly to remove it.
- Avoid blowing the glitter or fuzz. To remove from the playset or dome, use a damp cloth.
- Clean the applicator in warm water and dry thoroughly.

NOTE: Feed doll before adding glitter or fuzz as it will wash off with water.

- If the glitter or fuzz only peels off after it has dried, apply a coating of water (not included) to the doll's head and accessories. Allow the water to dry for 10 minutes. Then, add glue and glitter or fuzz. Let it to dry for two hours.
- After glitter and fuzz has dried, avoid separating the doll and accessories. If glitter or fuzz rubs off, touch up by adding more glue and glitter or fuzz.
- Only use the teal glue when applying glitter and the pink glue when applying fuzz to the doll's head or accessories.
- For best results, use warm water to remove the glitter or fuzz.
