

**COLOR-CHANGE**

- Cold color change will start at approximately 59°F (15°C), but best results occur if the ice water is chilled to approximately 32°F (0°C) or colder.
- **Only certain dolls change color.**
- Color change will only work on certain parts of the doll's body or accessories. Not all included accessories change color.
- If color change does not work properly or quickly, the temperature of the doll's body may be too close to the temperature of the water.
- Color change temperatures may vary according to weather conditions.
- Do not store the doll in direct sunlight for extended periods of time.
- Exposure to sunlight may deactivate color change feature.
- The color-change effect of the doll's body has a lengthy, but limited lifespan.

**IMPORTANT INFORMATION**

- Before beginning, cover the play area to protect from possible water damage.
- Wash hands thoroughly before and after use.
- Use as directed. Avoid direct skin contact with the Glitter Globe™ powder tablet and glitter mixture. **DO NOT PUT MIXTURE IN MOUTH.** Keep out of reach of small children. Adult supervision is required.
- Avoid contact with eyes. In case of eye contact, rinse with water thoroughly. If eye irritation persists, seek medical attention.
- When building SNOW B.B., logos should be facing the same side.
- Lift the assembled SNOW B.B. from the bottom ball when moving.

- Dissolution of pigments may vary in different environments. Replace the plug properly and shake to achieve best result.
- Your doll will spit. **Some spit and change color.** Collect them all!
- Fill the bottle and feed the doll 4-6 times. Squeeze the bottle multiple times each feeding so all water flows to the doll's hair.
- Doll may spit glitter during bottle feeding. Burp her between feedings by tapping the back of her head to completely fill with water.
- Once hair is filled with water, water might leak from the mouth.
- Do not feed or place the doll in extremely hot water (over 109.4°F/43°C).
- An adult must be present when children are playing with water.

- Squeeze out all water from the bottle and doll after each use.
- Doll's hair glitter may change the color of the water. Do not aim at eyes, mouth or face when squeezing. Color transfer may occur.
- Glitter may tint doll's hair permanently if water is left too long.
- Empty all water from the doll after use.
- Distilled water is recommended for filling the ball.
- When filling and emptying the ball, hold it at an angle.
- Max. water volume for the ball is 1.35 fl. oz. (40 ml) Do not overfill.
- Do not store water in the ball for extended periods of time. Empty the ball of water and glitter after playing.
- Thoroughly drain the doll and ball on a dry towel in a well-ventilated area after use and before storing.
- Air dry only. Do not place in the dryer or subject to excessive heat.

- Dispose of glitter [♻️] in the recycle bin.
- Place ball on display stand to display. Collect Winter Disco LILS™, FLUFFY PETS™ and GLITTER GLOBE™ to build SNOW B.B. Only assemble containers as instructed.
