COLOR-CHANGE

- For cold color change, use ice water at approximately 32°F (0°C) for best results.
- Only certain dolls change color.
- Not all included fashions or accessories change color.
- Color change will only work on certain parts of the doll's body.
- Extreme weather conditions may cause the color change pattern reveal upon arrival. To return it to its original color, place the doll in a room temperature area at approximately 68–77 °F (20–25 °C).
- If color change does not work properly or quickly, the temperature of the doll's body may be too close to the temperature of the water.
- Color change temperatures may vary according to weather conditions.

IMPORTANT INFORMATION

- Before beginning, cover the play area to protect from possible water damage.
- Your doll has a unique water feature and will either spit, pee, cry, or change color.
- For best results, fill the bottle and feed the doll two times.
- Do not place the doll in extremely hot water.
- Do not feed the doll extremely hot water.
- An adult must be present when children are playing with water.
- Do not store the doll in direct sunlight for extended periods of time.
- Squeeze out all water from the bottle and the doll after each use.
- Thoroughly drain the doll on a dry towel in well-ventilated area after use and before storing.
- Air dry only. Do not place in the dryer or subject to excessive heat.
