

USING NAIL POLISH

1. After you have applied your new nails, place each finger on the finger placements on the top of your counter playset for stability and begin designing; see below:

2. Unscrew the cap on the nail polish.
3. Apply a thin coat of nail polish to the nails.
4. Allow the coat to dry; dry time is about 15-30 minutes. Add coats as desired.
5. Then, add stickers to your nails to customize once the nail polish has dried; see below for glitter design instructions!

GLITTER DESIGN

1. Apply a thin coat of nail polish to your plastic nail. **TIP:** Do a glitter design on one nail at a time.
2. With the nail polish still wet, dip your nail into the powder.
3. Allow your glitter design to dry completely. Repeat these steps on the nails that you want to have a glitter design.

Create unique designs:

1. Whole nail with glitter
2. Heart symbol with glitter
3. Glitter stripes
4. Half of the nail with glitter
So many more!

KEYLOCK

1. To unlock, turn the keylock located on the back of the counter playset clockwise.
2. Pull the keylock out and discard in a recyclable bin.
3. The counter playset can now be easily removed.

GETTING STARTED

Before beginning, cover the play area to protect from possible damage.

Glitter Jar:

1. With adult supervision, use child-safe scissors to cut open the packet of glitter found inside the glitter jar. Cut along the guidelines indicated on the packet.
2. Open the glitter jar and pour the glitter inside.
3. Close the jar until you are ready for glitter application.

Display:

1. Place nail polishes or glitter jar on top of the counter playset.
2. Open the door on the counter playset to display and store nail sets; find your playset below to see how.
3. Slide the shelves out (Note: Candylicious does not have pullout shelves) and place each nail set within the groove until you are ready for nail application.

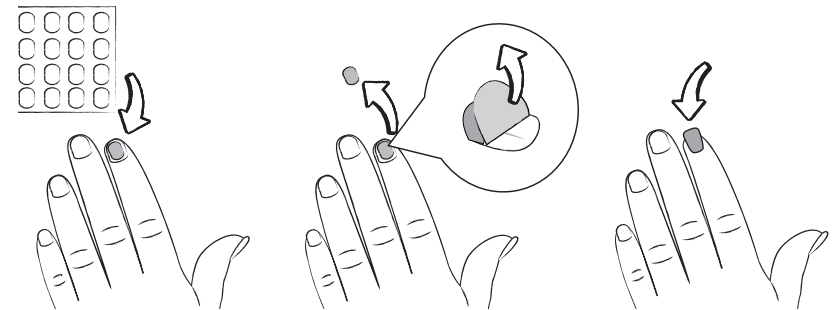

NAIL APPLICATION

1. Select the nail set design you want to use. **TIP:** Be sure the plastic nail matches the correct size of your real nail.
2. Twist the nails to break them off from the nail holder.
3. Use the nail file to file the edge where the nail detached from the holder until it is smooth.

4. Choose the correct size adhesive for each plastic nail.
5. Peel off a nail adhesive and place it to your real finger nail.
6. Then, peel off the top layer of the nail adhesive and discard.
7. Place the plastic nail over the adhesive and press down to secure it to your real nail. Repeat for all nails.

To remove the plastic nails, simply peel off each plastic nail from your real nail; nail polish remover is not needed. The nail adhesive should come off with the plastic nail. If the nail adhesive remains on your real finger nail simply peel or roll off the remaining adhesive or use warm water if needed. **Note:** Nail adhesives are not reusable.
