

Ages 8+
Conforms to ASTM D-4236
Read and follow instructions and safety guidelines before use.

WARNING!

**Contents are not food.
Do not eat!**

- NOT SUITABLE FOR CHILDREN UNDER 8 YEARS.
- ADULT SUPERVISION REQUIRED.

KEEP YOUNGER CHILDREN UNDER THE SPECIFIED AGE LIMIT AND ANIMALS AWAY FROM THE ACTIVITY AREA.

- Caution: Very Warm – Resin under UV exposure.
- Avoid skin contact. Wash hands thoroughly after use.
- Avoid touching resin with fingers before the resin is completely dry. Always use the supplied tweezers.
- Avoid playing with resin with broken skin.
- Keep contents away from eyes.
- If irritation occurs, discontinue use.
- Use in a well-ventilated area.
- Avoid direct inhalation.

IMPORTANT INFORMATION

Please keep this manual for reference as it contains important information.

- Do not use any items or accessories which have not been supplied with the set or recommended in the instructions for use with this kit.
- In case of injury, always seek medical advice.
- If swallowed: Wash out mouth and drink fresh water. Do not induce vomiting. Seek immediate medical advice.
- Do not place and store in kitchen or other food storage area.
- Do not mix with real food.
- Do not eat, drink or smoke in the activity area.
- Children's abilities vary, even within age groups. Supervising adults should see these instructions and exercise discretion as to which activities are suitable and safe for them.
- Component makes 1 miniature item.
- Adult supervision recommended when using scissors. Scissors not included.

BEFORE YOU START!

- Contents, including specifications and colors, may vary from photos depicted.
- Cover the play area to prevent resin damage to surfaces.
- An adult must be present when playing with resin.
- Keep rubbing alcohol or wipes close by to clean up messes and your hands. Rubbing alcohol or wipes not included.
- It is highly recommended to wear gloves and eye protection while using resin. Gloves and eye protection not included.
- It is recommended to set resin in direct sunlight or any 365nm - 395nm UV Light. UV Light not included. (Note: The intensity of the sun may vary depending on your location and time of day.)

HOW TO PLAY WITH RESIN!

(For the sets with resin)

- Think of your resin as glue. Use it to make everything stay in place. **Note:** When using as a base holder, make sure to expose resin to direct sunlight or any 365nm - 395nm UV Light (not included) to set it.
- To make it easier to pour, try keeping the bottle upside down, with the CAP ON, in a cup or bowl for at least 1 minute.
- When poured, resin will take a few seconds to drip or spread.
- Don't overfill your cups & plates – make sure you have enough room for your ingredients.
- If large bubbles appear when pouring, use the tip of the tweezers to pop them. (Note: The more you mix/stir the resin, the more bubbles that will appear.)
- While resin is still wet, using tweezers, take the time to carefully place all your items before taking it outside to set or placing it under a 365nm - 395nm UV Light (not included).

AFTER YOU'RE DONE...

- Clean all surfaces and equipment with rubbing alcohol or wipes after use. Rubbing alcohol or wipes not included.
- Store the product in a safe place and keep away from young children after play.
- Set any excess resin in bottle: Leave bottle open and place in direct sunlight for at least 5 minutes to set. Do not pour in drain.

TABLE ASSEMBLY

Connect stand (B) to bottom of tray (A) until it snaps.

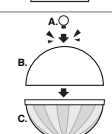

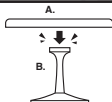

(Table is only included in Diner Series - 546825NFC, 546832NFC)

STORAGE & DISPLAY

Connect peg (A) to top half (B)

Note:

- One time snap.
- Close top half (B) to bottom half (C) for display.

1

MAKE IT

- Build your dish or drink using the ingredients and step-by-step recipe card from your pack.

Note: Each pack has unique ingredients; some packs may have a few more pieces than needed for the recipe.

2

SET IT

- Once you have your dish or drink prepped, place it under daylight or 365nm - 395nm UV light (not included) with a tray.
- Set the resin for at least 5 minutes or until resin has hardened.
- Only check if resin is hardened with the tweezers provided.
- Bring the dish or drink back indoors to cool down before touching it.

Note: Some recipes call for multiple layers of resin. For these recipes, set resin thoroughly before adding the next layer.

CHEF'S TIPS

Warm-up the resin by rubbing the bottle in-between your palms for a minute or more to make it easily pourable.

Resin still sticky after 5 minutes?

Give it a little more time under the sun or UV light...the more sunlight or UV light it gets, the better it will set.
