BATTERY REPLACEMENT

It is recommended that an adult install fresh alkaline batteries should unit need replacing. Here's how:

1. Using a Phillips screwdriver (not included) remove the screw and battery compartment cover from the bottom of the vehicle.
2. Install three (3) AG13/LR44 alkaline batteries (not included) making sure the (+) and (-) ends face the proper direction as indicated inside the battery compartment.
3. Replace the compartment cover and tighten the screw.

IMPORTANT NOTES ABOUT BUTTON BATTERIES

- **WARNING - KEEP BATTERIES OUT OF REACH OF CHILDREN**
- Swallowing may lead to serious injury in as little as 2 hours or death, due to chemical burns and potential perforation of the esophagus.
- If in Australia and you suspect your child has swallowed or inserted a button battery immediately call the 24-hour Poisons Information Centre on 13 1126 (Australia)/ your local emergency services for fast, expert advice.
- Examine devices and make sure the battery compartment is correctly secured, e.g. that the screw or other mechanical fastener is tightened. Do not use if compartment is not secure.
- Dispose of used button batteries immediately and safely. Flat batteries can still be dangerous.
- Adults shall tell potential users about the risk of button batteries and keep their children away from button cell. Adult supervision is required.

BATTERY SAFETY

- Remove and immediately recycle or dispose of used or expired batteries according to local regulations and keep away from children. DO NOT dispose of batteries in household trash or incinerate.
- Even used batteries may cause severe injury or death.
- Call a local poison control center for treatment information.
- Only use battery type LR44 or AG13 with a nominal battery voltage of 1.5 volts.
- Non-rechargeable batteries are not to be recharged.
- Do not force discharge, recharge, disassemble, heat above 58°C (136.4°F) or incinerate. Doing so may result in injury due to venting, leakage or explosion resulting in chemical burns.
- Ensure the batteries are installed correctly according to polarity (+ and -).
- Do not short-circuit batteries.
- Do not mix old and new batteries, different brands or types of batteries, such as alkaline, carbon-zinc, or rechargeable batteries.
- Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations.
- If using rechargeable batteries, remove rechargeable batteries before recharging and only recharge batteries under adult supervision.
- Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children.
- Batteries should only be replaced by an adult.

⚠ WARNING

INGESTION HAZARD: This product contains a button cell or coin battery.
DEATH or serious injury can occur if ingested.
A swallowed button cell or coin battery can cause **Internal Chemical Burns** in as little as **2 hours**.
KEEP new and used batteries **OUT OF REACH OF CHILDREN**
Seek immediate medical attention if a battery is suspected to be swallowed or inserted inside any part of the body.
